## FEATURED CONSIGNMENT!

### 1880's STYLE CONCORD STAGECOACH

Built according to original design.

This is the same coach Wells Fargo made famous built by the Abbot-Downing Company in Concord, New Hampshire.

The coach rests on heavy duty leather thorough braces.

Seven straps on each side, one quarter inch thick and three inches wide.

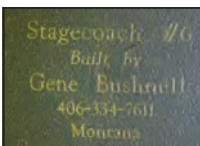

Built with strong oak and hickory, the wheels are hand forged with steel hubs and rims.

Interior of the coach includes extra thick, but firm, comfortable leather seats and backs. Period style upholstery on the ceiling and surrounding includes period style brass conchos. Leather window coverings and luggage compartment are true to the times.

Hand forged, hand hewn and crafted with special attention given to every detail by Gene Bushnell.

This is the sixth coach custom made by Gene.

# MORE DRAFTS ARE COMING!

As you may know, the Midwest Select Sale in Madison, Wisc., has decided to discontinue the Draft Horse portion of their sale going forward.

**We realize that this leaves a gap in the Draft Horse industry for selling quality Hitch Horses and we are stepping up to fill that gap!**

We will be reaching out to consignors and buyers affected by this and offering them the same quality experience you all have come to expect.

## What this means for you...

- **Spring 2026 Debut** - Giving consignors plenty of time to prepare. *Plan for our catalog deadline to be early February.*
- **Dedicated Draft Hitch Horse Showcase/Driving Area** - This specially designed area will allow ample space to showcase draft horses. Giving driving hitches the space and attention they deserve.
- **Expanding Opportunities** - We offer increased visibility and market options for draft horse owners and buyers.
- **Trusted Waverly Experience** - The same reliable and professional sale environment consignors and buyers have come to know, expect, and love about us.

**We are thrilled for this new chapter!  
Make sure you're a part of it!**

**(Picture) - Dr.'s Buggy -** A unique, breathtaking doctor's buggy that's been restored by the Amish. After restoration, the buggy was taken apart and setup in a home where it resided for 30+ years. The convertible top folds down for an open ride and can be easily raised to protect from the sun and rain. Wheel bearings provide for a smoother ride. The buggy is parade-ready. In 2014 it was taken out for it's maiden voyage, offering a ride to the oldest living person in Minnesota as Grand Marshal. The buggy was then returned to storage, where it has resided since.

Includes shaft set for single horse setup. Some misc. harness included. **Shaft set and hardware are not original construction.** Frame and suspension components were intact at recovery. Originally single seat buggy, second seat added at reconstruction. Used primarily for parades and limited personal use after restoration. Always stored indoors since restoration.

Extremely gentle and easy to handle and hitch. They have been used gathering cattle, at brandings, putting out salt and mineral, parades, PRCA rodeos, funerals with 21 gun salute, weddings, community events, sleigh rides with Santa and so much more! They have pulled every piece of farm machinery and just about every type of wagon up to a stagecoach. They have done many events at night. They have even had parachuters land by them in an arena and never flinched! Many kids have ridden them while in harness or bareback. My four year old and two year old grandkids ride, brush and lead them. Not very often do you come across a team this nice. The only reason they are for sale is so I can focus on my younger teams. They are exposed to a blue roan Percheron stallion. Sound. This team can have a break and they will harness up the same every time! FMI: 406-852-0196.

**Stands approx. 15.1 hands. Homozygous for curls and gait registered MFTHBA and NACHR. Mostly kept at home except for 30 days training as a 3 year old. Used him as stallion to cover the one mare not related to him. Got a beautiful filly and bred the mare back to him. He trailers and handles well. Being the breed is curiosity trait high, he tends to be curious more than startled. Curl's are a non-hypoallergenic horse. That means people allergic to horses have less reaction to them and need less allergy meds. I have had a couple people buy these for that reason and ride very successfully without any reaction. I love the foxtrot, it's a nice ride. I bred and raised this boy and he and my other stallion were together until we started breeding again. I am selling him to raise the next generation as he is related to all of them.**
